

30 WATT Solar Powered Attic Ventilation

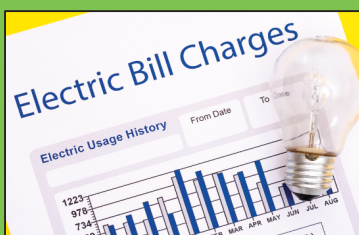

Keep your home cooler and healthier with Attic Depot Solar Fans. They quietly **remove trapped heat** and moisture from your attic—automatically—preventing buildup from reaching your living space. Powered by natural solar energy, our 30W fans deliver efficient, cost-free ventilation for a **drier, more comfortable home** year-round.

Better Comfort

Solar attic ventilation keeps your home cooler and more comfortable throughout.

More Efficiency

Cooler attic temps improve insulation efficiency and HVAC system run less.

Protect your Home

Less attic heat means your shingles & HVAC systems perform better with improved lifespans.

The Attic Depot Solar Fans are built with durable all-metal construction and engineered to withstand all weather conditions. Designed for reliability, performance, and backed with a LIFETIME WARRANTY. Built for comfort, efficiency and reliability where you need it most.
