

Proven Performance. Designed for Maximum Comfort.

Comfort Shield Multi-Layer Insulation creates a powerful barrier—reflecting intense heat away from your home while locking in the comfort of your indoor heating and cooling for year-round efficiency.

The ATTIC is the #1 source of heat gain & loss in the home!

SUMMER: Reflects Heat Away

WINTER: Retains Heat Inside

Comfort Shield — from blazing heat to cold snaps, your attic stays protected year-round.

COMFORT SHIELD Benefits...

- **Very comfortable throughout the home**
- **Lowest possible utility bills**
- **Vapor barrier reduces moisture build up**
- **Increases insulation efficiency year round**
- **Delivers up to 25% greater home efficiency.**
