

DRAFTMASTER

ATTIC STAIRWAY INSULATORS

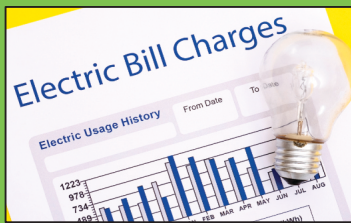

Your attic door isn't protecting your home—it's exposing it. Dust, insulation, pests, heat, fungus, and outside air are all slipping through. Seal the gap with Draft Master and turn a major weak point into a powerful barrier against energy loss.

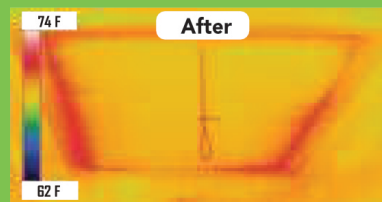

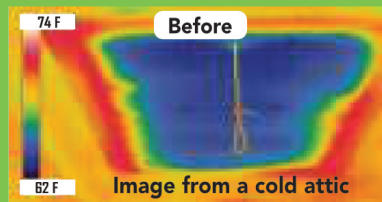

Better Comfort

Draft Master Insulators provide year round comfort and energy savings typically \$10 to \$15 per month.

Controls Heat & Cold

The Draft Master will decrease heat loss in the winter and limit cooling loss in the summer.

Limits Dust Buildup

Eliminate Drafts

Keeps Pests Out

- Easy to use
- Low cut, No trip entry
- Double bubble radiant foil
- Heavy duty zipper
